GRIP CLIPS

Clips Hold Coax Neatly in Place

DESCRIPTION/PERFORMANCE/SPECIFICATION/FEATURES

- No risk of damaging coax jacketing
- Clips conform to coax surface without indenting or creating a RF 'choke'
- Clip conforms to various diameters of coax
- Almost 360° of grip prevents sliding of coax
- Black clips are UV resistant (PE) Polyethylene plastic resin for long lifespan and security
- GripClip can be removed and re-used if coax needs adjustment/replacement
- No 'surprise shorts' or unseen coax cable penetration as is common with staples

MECHANICAL CHARACTERISTICS

- UV protected PVC plastic
- Fits standard RG-6, Trishield RG-6 and Quadshield RG-6
- All clips accommodate one antenna ground(messenger) wire
- Minimum 1/2" or 7/8" penetration of mounting surface depending on model
- Yellow zinc plated mounting screw, 1/4" hex drive head

DIMENSIONS

Width:	3.50 in.
Height:	2.00 in.
Depth:	4.00 in.
Volume:	28.00 cubic in.
Weight:	0.65 lbs.
Packaging:	Bag of 100
